

WASHINGTON CLEANING OUT MUCH NEEDED.

Rotteness in San Francisco Postoffice.

Departmental As Sharpener and Heads Soon to Fall.

Panama Canal Situation Remains Unchanged—New Issue of Two Per Cent. Bonds.

DIRECT WIRE TO THE TIMES:
WASHINGTON, Sept. 23.—[Exclusive Dispatch.] Postoffice Department officials held an automatic meeting yesterday regarding the report that D. S. Richardson was protected in the evidence he gave before the grand jury that resulted in the indictment of James W. Erwin, and whether a pull had been exercised by ex-Secretary of State John W. Foster in Richardson's behalf.

"Both statements are preposterous," said one of the Assistant Postmaster-Generals. "Richardson came here because he had to and told all he knew because he was forced to. He didn't have his own mind made up. From what we obtained from him under oath, and from other sources, we are now well posted as to the condition of the San Francisco postoffice, and it's a pretty rotten state of affairs."

"Can you give details of rottenness in the San Francisco postoffice?"

"I can, but I won't."

"Has Postmaster Montague's resignation turned up?"

"No, we have not seen it."

"What parties are under suspicion at San Francisco?"

"We can't go into that, but there will be a house-cleaning there. I see people in San Francisco believe Richardson escaped scot-free by lying about Erwin. They seem to regard Erwin as persecuted. Maybe subsequent events will change their minds."

NEW YORK, Sept. 23.—George W. Beavers was today arraigned before United States Commissioner Ridgeway on two indictments recently returned against him in Washington, for alleged corruption in connection with contracts between the Buntin Time Clock Company, now known as the International Time Recording Company of Binghamton, N. Y., and the Postoffice Department in connection with which transactions George W. Green of Binghamton was also indicted.

Commissioner Ridgeway fixed the examination for next Wednesday and Beavers was released on bail.

POSTOFFICE TRIALS.
FIRST SLATED FOR OCTOBER.
DIRECT ASSOCIATED PRESS—P.M.

WASHINGTON. Sept. 23.—United States District Attorney Beach, upon the convening of the October term of the District Supreme Court, it is understood will move that the first of the postoffice cases be set for trial October 24.

The grand jury reassembled today but adjourned without action. It is known that several indictments are in course of preparation, and the grand jury is expected to report them shortly.

COMPLIMENT TO MENELIK.
PEACE MAY VISIT JUBIJI.
DIRECT ASSOCIATED PRESS—P.M.

WASHINGTON. Sept. 23.—In case the condition of affairs in Turkey will justify the withdrawal of our cruiser Brooklyn from San Francisco from Beirut and the gunboat Machias from Port Said, where they have been for the past few weeks, it is probable that all those vessels comprising the present European squadron, will be sent to Jubiji, a port on the east coast of Africa. The purpose of the cruise, however, is to be determined by the United States in the establishment of intimate commercial relations with the government of Abyssinia.

Mr. Skinner, United States Consul-General at Alexandria, who is to make a personal visit to King Menelik at his capital, Adis, in the mountains of the interior of his extensive domain, to conclude a commercial treaty, is now making arrangements to make arrangements for his expedition, and probably will start in two or three weeks for the Eastern Mediterranean, from which point he will proceed to his port of call, Jubiji on one of the vessels of Admiral Ciozon's squadron. In case it is decided to send the entire squadron to the east coast of Africa on this mission, it would not be necessary for them to leave their present stations for at least a month.

WASHINGTON. Sept. 23.—Under instructions from the Adjutant-General of the army, a provisional battalion of Philippine scouts, composed of the Fourth, Thirteenth Tagalogs and Forty-seventh Visayans will be organized for duty at the St. Louis Exposition. Before coming to the United States these companies will be mobilized at Caloocan province of Rizal, for the purpose of drill and instruction.

WASHINGTON. Sept. 23.—Elwood Mead, chief of irrigation of the Department of Agriculture, returned today from a tour of investigation in Italy and other European countries. Mead will later make a report to Secretary Wilson noting his observations of irrigation systems abroad. He says that the government methods of irrigation are superior to those used anywhere, but that the United States might take lessons from the superior construction of the canals abroad.

TWO PER CENT.
NEW ISSUE AUTHORIZED.
DIRECT ASSOCIATED PRESS—A.M.

WASHINGTON. Sept. 23.—Secretary Shattuck authorized yesterday that owing to the scarcity of two per cent. bonds, and as security for government deposits, he will renew refunding operations to the extent of \$20,000,000 in accordance with the previous circular.

Of the total issue of \$51,000,000 of 2

per cent. bonds, the treasurer already holds for circulation and for deposits \$40,000,000. Secretary Shaw also authorizes the statement that he will redeem the 5 per cent. bonds matured on February 1, 1910, paying interest to maturity. Formal instructions to the several subtreasurers authorizing them to redeem on presentation will be issued.

The banks that have had on file with the treasurer for thirty days, or more, 5 per cent. bonds as security for substitutes approved stock and municipal bonds therefor, which will be accepted at 75 per cent. of their value.

CANAL SITUATION.

PRESIDENT STANDING PAT.

WASHINGTON. Sept. 23.—[Exclusive Dispatch.] If the Hay-Herran convention died at Bogota last night, as seems probable, and if no plan for a new treaty was advanced far enough to give positive encouragement to the negotiations of the canal in the United States and Department of Panama, sensational developments may be expected.

It is conceded in Washington, by many in position to know something of the plans of the administration that the President will not turn to the Nicaraguan route as he has authority to do under the Spooner act. But the third alternative, it is believed, may be carried into effect if the isthmus is strong enough to break away from Colombia.

Acting Secretary of State Adeco remained in Washington, all last night awaiting the cable dispatch from Bogota. The agents for the Panama Canal Company in this city had word from Bogota yesterday, but would not divulge any information. It is believed, however, related to a new proposal which Colombia will make acceptable to the United States.

It is possible some action was taken by the Colombian Congress before the expiration of the time limit on the treaty at midnight, but this is not regarded as probable. If such should be the case no word could possibly reach Washington before tomorrow.

Minister Beavers' dispatch, received today, throws no further light on the situation.

PRESIDENT STANDING PAT.

WASHINGTON. Sept. 23.—[Exclusive Dispatch.] One of the general features at the next general conference of the Methodist Church at Los Angeles in May will probably be the calling of Prof. Borden P. Bowes of Hinsdale, Illinois, president of the University before the conference on the subject of heresy. A pamphlet attack on Prof. Bowes' views is now being circulated through official Methodist channels by Rev. George Cooke, a former student under Prof. Bowes, who is one of the most eminent scholars of the highest criticism in the country.

The election of officers resulted in the following resolutions, offered by H. C. Storer of Chicago:

"Resolved, that in view of the demand of Canada and the closeness of kinship between her people and those of the republic and the desirability of strengthening them, we cite the Dominion as a country deserving of reciprocity in a special sense and without regard to a policy of general reciprocity;

"Resolved, that we urge every member of the association to constitute himself a committee of one to see that his Congressman and Senator are informed of the general interest of this country, that our growing trade be conserved, assisted by a policy of genuine reciprocity;"

"Resolved, that we urge members of the association to accept the demands of the miners, and to support them in their strike.

"Resolved, that in view of the fact that the miners are in a strike, we advise the association to take no action in their behalf until the miners have been paid off, and that the miners be given a chance to work again.

"Resolved, that we urge every member of the association to constitute himself a committee of one to see that his Congressman and Senator are informed of the general interest of this country, that our growing trade be conserved, assisted by a policy of genuine reciprocity;"

THE BALKANS.

CRISIS AT
YILDIZ KIOSK.

Said Pasha May Resume the
Grand Viziership.

He Wants Authorities to Dec're
War on Bulgaria.

Heavy Fighting in Kotchang—Less
Hopeful at Sofia—Panic
at Kotshan.

CONSTANTINOPLE, Sept. 23.—[By the Associated Press—P.M.] The relations between Turkey and Bulgaria are daily becoming more strained. Rumors are current of a crisis at Yildiz Kiosk and that the Grand Vizier has been offered to Said Usha, who was unceremoniously dismissed last year, but that he declines to take over again the office unless he is authorized to declare war on Bulgaria, which the Sultan hates to do.

As one of the results of the numerous cabinet changes, the transfer of thirty-two battalions from Monastir to Adrianople has been ordered and some 200 young officers have gone to Salonica and Adrianople to complete the commissions in the army in Roumelia. These movements are regarded as war preparations against an expected attack. The military commission is practically in government service.

HEAVY FIGHTING.
BY THE ASSOCIATED PRESS—P.M.]

LONDON, Sept. 24.—[By Atlantic Cable.] A dispatch to the Daily News from Dubnitsa, dated September 22, says heavy fighting has been proceeding near the town of Mishino, in the district of Kotchang, in Bulgaria, on the Bulgarian border. The insurgents numbered 250 under Capt. Trenoff and Tscheopeneff, the latter being the man who captured Miss Stone, the American missionary. The Turkish force, which consists of ten battalions with artillery, is taking the view that these diseases were well coped with by the authorities at present and that, while care was needed, Americans have little to fear from this small.

The insurgents have completely routed the Turks at Menlik, and have captured many of them, including the commander of the Turkish division who is being kept a prisoner. Many Turks were killed.

The Times' correspondent at Vienna telegraphs that there is excellent authority for believing that the Austro-Russian programme has been given all intention of revising or extending the Austro-Russian programme of Macedonian reform. This decision, he says, was probably influenced by the German Chancellor, Count von Buelow.

SOPHIA, Sept. 22.—[By the Associated Press—P.M.]

SOPHIA (Bulgaria) Sept. 22.—[By Atlantic Cable.] A less hopeful feeling prevails today in government circles regarding the general situation, although no actual change is reported. The various Balkan states are anxious with greater anxiety, and popular reading is becoming more excited.

A large attendance meeting of Macedonian sympathizers had at Rustchuk, Bulgaria, September 22, adopted resolution to declare war on the Bulgarian government to obtain an immediate peace.

In revolutionary circles war is believed to be imminent, unless Turkey stops massacres of the Christians, of whom there are no signs at present. Dr. Chicho Lazaroff, president of the Macedonian organizations, has informed the Associated Press correspondent that the insurgent committee attach no significance to the proposed negotiations between Turkey and Bulgaria, because similar negotiations were discussed in 1897 and later in 1899.

The Porte, added Dr. Lazaroff, only entered into the conference in order to gain time to act, and the danger of war in regards as the dangerous elements in Macedonia.

Referring to the details of the proposed arrangement, Dr. Lazaroff said there was no guarantee even if the Porte was satisfied that it would ever be anything more than ornamental. The present village committees in Macedonia have Bulgarian members, but they are not afraid of the Turks.

Special signatures attached to the Macedonian meeting at Rustchuk because the resolutions adopted are the first open expression of such an emphatic character in favor of independence from the Turks.

Rustchuk is the chief commercial town in the county. Resolutions were also passed thanking the Pope, the English Bishops, and American Congress and the British and American press for their expression of sympathy with the Macedonian cause.

Fighting is reported to have taken place near Kardzhali on the frontier, in which the Turks lost 50 men killed, and the insurgents a loss of 10.

A panic prevails at Kotshan, and all business and trade at a standstill. A number of persons of other minor countries and more particularly from the Turks continue to come in.

ORDERED TO CRETE.
BY THE ASSOCIATED PRESS—P.M.]

LONDON, Sept. 23.—It is reported that the British battleships Russell, Illustrous and Renown have been ordered from Majorca, Beleric Islands, to Suda Bay, Isle of Crete. It is supposed in connection with the Balkan crisis.

Movement Now on Foot for the Re-organization of the Consolidated Lake Superior Company.

(BY THE ASSOCIATED PRESS—A.M.) PHILADELPHIA, Sept. 23.—John S. Freeman, counsel for the Consolidated Lake Superior Company and told:

"The movement is on foot on foot in which a majority of the stockholders will, I believe, unite to save the property, and I think a proposition looking to the reorganization is under way and will be agreed to by the stockholders."

It was learned today that the plan provides for a new company, capitalized at from \$35,000,000 to \$40,000,000.

The Consolidated Lake Superior Company is a holding company, controlling a large amount of property in the new State of St. Marie. It was organized under the laws of Connecticut, and has an authorized capitalization of \$117,000,000 of which \$102,000,000 has been issued. The principal stockholders are Philadelphia.

The company operates the Helen Ore mines, iron and steel mills, veneer mill, pulp mill, a sawmill and a nickel plant at the Soo, and a railroad system on both sides of the Soo, a ferry across St. Marie River, the Grace gold mine, 10 miles in the Subury district of Ontario, car shops and several other concerns.

The troubles of the company became public last December, when the Speyer & Co. loan was negotiated.

UNDER THE HAMMER.
BY THE ASSOCIATED PRESS—A.M.] NEW YORK, Sept. 23.—It was stated informally that the Speyer syndicate probably would sell the assets of the Consolidated Lake Superior Company at auction on October 1. Details as to terms and conditions will be announced later.

FARMERS' CONGRESS.

Distributive Side of Agriculture Now Considered to be the Most Important. Trust Question Ignored.

Charles B. Farwell.

CHICAGO, Sept. 23.—Former United States Senator Charles B. Farwell died at his home in Lake Forest today of heart trouble. After serving in the Senate 18 years, he had been a prominent figure in local, State and national politics since 1884, when he came to Chicago from Ogle county, Ill. In 1891, he was elected successively in real estate and banking, and in 1894 purchased an interest in the present house of J. V. Farwell & Co. He was born in 1844, died at 84 years ago. After serving as County Clerk, member of the State Board of Equalization, State Senator and member of House of Representatives, he was elected to the United States Senate from Illinois in 1888.

REV. HENRY R. PERCIVAL.

PHILADELPHIA, Sept. 23.—Rev. Henry R. Percival, a prominent Protestant divine, died last night at his country home in Devon, Pa., at 86. He was 48 years of age. Dr. Percival was an extensive writer on theological matters, and his books being standard works in nearly all of the Episcopal theological seminaries.

RESOLUTIONS favoring the election of United States Senators, and approving an additional constitutional amendment allowing an income tax will be voted on. So-called trusts were ignored by the committee. A proposed ship-subsidy resolution was not favored.

Capt. George Rudlin.

VANCOUVER (B. C.) Sept. 23.—Capt. George Rudlin, a veteran skipper of British Columbia waters and commander of the steamer Princess Victoria, running between Vancouver and Victoria, dropped dead on Granville street today. He had been forty years old.

Augustus R. Grote.

PITTSBURGH, Sept. 23.—Dr. Holland of the Carnegie Museum received word this morning of the death of his son, Dr. Holman Grotte, 22, a student in the faculty of the university.

ALLIANCE FLOATS OFF.

NEW LONDON (Conn.) Sept. 23.—The United States training ship Alliance, which went aground at Race Rock, late yesterday afternoon, floated off this morning. The sailor, a philistine went to the assistance of the Alliance, but her services were not needed. Capt. Tillman of the Amherst was not injured, and the Alliance was not injured, and expected to sail today.

CALIFORNIA (Sept. 23)—[Exclusive Dispatch.] The world's wheat-threshing record has been broken by J. W. Crouchner, a farmer of Trego county, who in eleven hours and fifteen minutes threshed 401 bushels, which surpasses the old record by eighty-one bushels. The incentive was a standing offer of \$500 by a threshing-machine company for the beating of the record.

DRIVEN BY WATER PUMPS.
A boat Propelled and Steered by Water Jets.

NOVELTY in the construction of marine craft is shown in a recent patent grant covering the design of water. Instead of engines to drive propellers, pumps are employed and the boat drives by the power of jets of water taken in at the stern and ejected at the stern. The engine is made of a general way with the accompanying cuts.

The pumps are suitably located with the body of vessel, and each is provided with an intake tube which is held by a point which is directed forwardly to a point which is directed rearwardly. There are two openings through which the water may receive water, the said opening, of course, being turned below the line of the other port. The portion of these pipes are controlled by valves operated from some convenient place.

Extending from each of the pumps is a tube which is curved so as to find at the side of the vessel the forward part thereof, the portion of the tube being di-

Flexible Saw Handle.
Among the newest ideas for the purpose of increasing the comfort of the workingman is a saw handle made of rubber. The advantage of such a handle is that, being elastic, it prevents

the hand from becoming tired.

Another pipe also extends rearwardly from each pump, and this pipe is preferably divided into two branches. One branch extends nearly straight the side of the boat at a point near the bow, while the other extends rearwardly in the vessel's central distance from the stern to the stern of the boat, and from these will propel the boat forward. Other openings at the stern have been provided for the sake of the craft.

Experiments with a boat of this character it was demonstrated that she could be turned in her own length, and this is an achievement of some importance.

BUSINESS.

For the third time this week the local bank clearings yesterday exceeded a million dollars, although the daily showing is not equal so far to that of last week. From many sources comes the information that September has been a disappointment in several lines of trade, but nobody is finding fault, because the summer months were so far ahead of anticipation. With the beginning of October the usual briskness of fall trade is all lines of activity will doubtless begin. The demand for money, while unsupervised, according to banks.

Trading was more active on the New York stock exchange yesterday, but it did not check the downward tendency in prices. Secretary Shaw's relief measure gave assurance against money stringency during crop-moving this fall. Bearish sentiment ruled wheat on the Chicago exchange, and corn went down in sympathy, but oats showed strength.

SOLDIERS SWAPPING GUM. There are tales told of school-girls swapping gum—making one end go around by passing it down the line, to Mary after Ann has chewed it, and then to Susan and Jane.

There are tales, too, that something of the sort has been going on in military circles in California—that the Governor has been peddling a brigadier's baton to one and another and then the next.

The reported arrangement gives the end to each of a row of ambitious soldiers to masticate for a few weeks apiece—it first having abided with Gen. Last, then gone to Gen. Prescott, next, perhaps, to be passed to Col. Berry, and Maj. Wankowski to come in for a pull at it somewhere later on.

It seems a queer proceeding for a Governor of a great State to be engaged in—this passing the cud around for the sake of gratifying politico-military longings and paying off scores—and what sweet satisfaction there must be in wearing a brigadier-general's second-hand strap for a few weeks! It must be equal to that which a woman finds in dressing up in a borrowed sealskin.

The end chewed by Brig.-Gen. Last is now in possession of Brig.-Gen. Prescott. The question is whether after Prescott has coughed it up and maybe tossed it to Col. Berry and he has spit it out, Maj. Wankowski will really hanker for it.

Maj. Wankowski is a soldier of a self-respect and a spirit creditable to him, and it is doubtful if he will accept an appointment which has been chewed over so many times, if it is tendered to him. How can he do it under the circumstances?

It is well known that the permanent appointment was definitely promised to him last winter, the Governor making the reservation that he desired to temporarily work in "a friend" after Gen. Last's retirement, this friend proving to be Maj. Prescott, now Brig.-Gen. Prescott; and it will be remembered that Gen. Last's tarry in office was the result of a disastrous political bargain in which Corney Pendleton figured. Then came the belated appointment of Prescott, as per the slate—and now it appears that the Governor has another "friend," whom he wished to placate with a temporary generalship.

To make such a plaything of the brigadier-general's dignity; to use it as a sop for politicians; to pass it down the line like a schoolgirl's cud of spruce-gum—who would think Gov. Farde would do it?

ANOTHER BUSINESS RECORD SMASHED.

Note was made in these columns on Tuesday morning of the breaking of the record for the number of "Liners" printed in any single Sunday issue of The Times, the total for September 20th being 4086 separate classified announcements.

The record for any single week-day issue was broken yesterday, Wednesday morning, the number printed being 876 separate announcements, or a total of 234 columns. For a mid-week issue this is a phenomenal amount of space to be filled by classified advertisements, even in The Times; and as far as for regular journals—they have not even "come up over the hill."

What Mr. Mondell refers to is the

proposed repeal of the Desert Land Act, the Timber and Stone Act, and the commutation clause of the Homestead Act, as recommended by the President in his message to Congress, and as urged by the National Irrigation Association, and all other true friends of the national irrigation movement.

Now, in the language of the street, "wouldn't that jar you?" Such a bold attempt to call black white seems to show that the people who live in that remote northwestern section of the country must be altogether out of touch with the spirit of the age, and that they must have entirely overlooked or forgotten what Abraham Lincoln said about the impossibility of fooling all the people all the time.

The absolute absurdity of this statement becomes apparent when it is remembered that after the Desert Land Act, the Timber and Stone Act, and the commutation clause of the Homestead Act shall have been repealed, there will still remain the original Homestead Act, under which every adult American citizen—or person who has declared his intention of becoming a citizen—may obtain, for nothing, 160 acres of government land, by building a residence and living on it for five years.

The desperate extremes to which these people are going in their effort to reap the benefits of the National Irrigation Act since they have been unable to defeat its passage emphasize the statements heretofore made in The Times that the people must bend every effort to impress the coming Congress with the importance of carrying out the public land policy outlined by the President, and with the fact that Congressmen who stand in with the cattle barons, and timber thieves, and oil and grabbers, will be marked men, who cannot safely be intrusted with public office, because they hold the private interests of themselves or their friends higher than the public weal.

CIVIL SERVICE REFORM. San Francisco is not exactly the place where one would look for an example of municipal reform, yet even there civil-service reform, which was recently introduced in the city, promises to work wonders. If faithfully carried on, as an example of the benefits of civil-service reform, the Merchants' Association Review, of San Francisco, for September, publishes an engraving, descriptive of a "permanent improvement" built from current revenue, which it terms a "monument of civil service." It is the new warehouse of the Department of Elections, now under construction. It is being built out of the savings of an office that was once one of the most wasteful and extravagant in the city government, but which has become, through the operation of the merit system, one of the most efficient and economical. Bursts of speed seventy and seventy-five miles an hour were frequent. The train was made up of five cars, and was pulled by engine No. 160, in charge of Engineer William Dunton. This engine is the new Atlantic type, weighing 17,000 pounds. It is the most powerful style in service on the Baltimore and Ohio Railroad. An extra large water tank helped in this remarkable performance, saving stops for water.

From Garrett into Chicago another engine, of the same make, made the run. On this run a total of seven miles was reached. The performance between Chicago Junction and Garrett could have been duplicated had the train not been blocked by a train ahead, to which it was running into. Minutes. No stops were made. The distance traversed is between Chicago Junction, O., and Garrett, Ind. During the run a speed of eighty-five miles an hour was reached. This was the maximum. According to Gen. Hunter of the British army the naval gunning at Ladysmith was so bad that the marksmen had difficulty in hitting the earth. Well, the world is a rather small target for some shooters.

There are indications that our new railroad for long-distance running was made by a passenger train on the Baltimore and Ohio Railroad when a stretch of 128 miles was covered in 125 minutes. No stops were made. The distance traversed is between Chicago Junction, O., and Garrett, Ind. During the run a speed of eighty-five miles an hour was reached. This was the maximum. Ellen Terry, the great English actress, is very ill. She is likely to die.

He plifers, they admire him; he plifers more, they love him; he robs in wholesale fashion and they make him their God—a wooden god, of clayey feet. When he gets out a peg, they will be masticated for a few weeks!

THE LATEST FROM WYOMING.

Whenever you see anything emanating from Wyoming in regard to national irrigation, you are pretty safe in betting your Panama hat, or any other object you highly prize, that it is heretical, from the standpoint of those who aim at national irrigation of the arid lands for the benefit of actual settlers, although it is true that The Times recently quoted a sound and logical editorial on the subject from one Wyoming paper. But then, that is only one of those exceptions that go to prove the rule.

Of all the remarkable outgrowths that have come from that northwestern cow State, perhaps the most remarkable is the following, which is credited to Hon. F. W. Mondell, a Wyoming delegate to the recent National Irrigation Congress at Ogden:

"The people of the public land

States are forced to the conclusion that no little part of the agitation for

repeal emanates from large corporate

and land-scrip owners, who see in the withdrawal of public land from

market a greater demand for their

property."

Harriman's Double Role.

As F. W. Harriman walked down the grandstand at the Centennial when she docked last Saturday, he was the center

of interest to a party of New

inventory of Mr. Harriman's few feet

Yesterday's Forecast and Report.

U.S. WEATHERING BUREAU, Los Angeles, Sept. 23.—Reported by George E. Franklin, Local Forecast Office, Los Angeles, Calif., at 12 p.m. Weather forecast for the corresponding hours showed 42 deg. and 72 deg., moderate humidity, 1 a.m. to 4 p.m.; 50 deg. and 70 deg., very light wind, 5 p.m. to 8 p.m.; 65 deg., maximum temperature, 84 deg. deg., minimum, 62 deg., total past twenty-four hours, 72 deg. Total fall for season, 7 cent. Barometer reduced to sea level.

Weather Conditions.—Gentle, uneventful weather conditions throughout the Pacific Coast, clear, fair and rainy weather alternating. A light rain was falling at Los Angeles at 5 a.m., ceasing soon afterward. It was followed by a dry spell, which the sun was generally bright on the North Pacific Slope. It is generally warmer in the Southwest than in the Northwest. Weather was generally cloudy on the North Pacific Slope.

Forecasts.—Local forecast for Los Angeles and vicinity: Tonight light showers; cooler at Los Angeles. Thursday, cloudy.

SAN FRANCISCO.—Fair weather conditions and general forecast: The pressure has risen slowly along the coast north of Bureka. Light southwesterly winds are reported from the mouth of the Columbia River. The northwest winds are reported at Point Reyes and the Peninsulas. The Mexican storm is moving slowly northward, and cloudy weather is expected over California and in the lower portion of the San Joaquin Valley. Rain has occurred in Arizona, Southern California and the San Joaquin Valley. Frost, drizzle and rain are expected in Los Angeles. Frost, drizzle and rain are expected in San Francisco. Weather should be prepared for light showers Thursday night. The temperature has risen about 10 deg. in the San Francisco Day district. Forecast:

For Northern California: Fair Thursday, scattered showers in extreme southern portion of the state; cool, light; northerly winds inland; brisk westerly winds on the coast.

For Southern California: Cloudy, uneventful weather Thursday; probably light southwest wind.

San Francisco and vicinity: Cloudy Thursday; light rain in the morning and at night; probably mist in the evening; light southerly winds changing to westerly.

Sacramento and vicinity: Fair Thursday; light rain with a chance to continue.

Fresno: Cloudy Thursday, and possibly light showers Thursday night; light north wind, cool; rain expected. Rainfall makers should be prepared to cover.

VENTURA COUNTY.

NEW SANTA FE LINE?

ENTURA, Sept. 22.—Rumor has

rise here for several days that

the Santa Fe, which runs be-

tween John Burson and his electric

scheme, between Huemes on

seacoast, in this county and Bakersfield.

The story is to the effect that

Santa Fe was desirous of reaching

east from Bakersfield and saw its

own way of getting there.

Burson has run survey lines through

mountains in the east end of

county and has located a line

in the hills.

It opens a section road to easy

travel and oil.

Burson also controls one or

two and is now seeking a way to

through the town, and toward

Barbara.

According to a recent interview in

Angeles, Mr. H. C. Russell,

one of the promoters of the Burson

line, it all seems borne out, as

he says he has been built, as

he does in Kern county, roads

which connect with and use the San Joaquin tracks into Bakersfield. Burson has long represented that his road was

as good as any in the state.

The length of such representations

has caused him to run over public

ways, all through the country. He

at last got a route, which

is several desirable routes, which

will be used to reach Los Angeles,

the road from Bakersfield to Los

Angeles would be shorter than that of

Southern Pacific.

IN SHORT.

One of the first place has put up

a tract of ex-Mission land, east

of town, embracing 2600 acres. It

is from the Lloyd place to the

San Joaquin.

The price paid is to be \$100 per

acre, and the land is largely for grazing

purposes.

is now in use holds only 10,000 gal-

March 1st, there has been water in

The Pleasure of Visits.

It is a pleasant occasion to wake up in the morning and feel that one is a guest. Strange wall papers and strange furniture surround one's bed, and there is a strange view out of the window. All the trouble of worry, anxiety, and responsibility, whether domestic or professional, who stand ready to crowd upon our consciousness vanish in the unfamiliar environment. We have gone to the land of the unknown and lie blissfully waiting for a knock at the door which shall bring an unfamiliar sound.

Downward at the moment, new pictures, strange books, a fresh standpoint. Life has a new flavor. We taste it everywhere, in the atmosphere and in the conversation. One finds in the bread and the butter. Our taste is everything that everything depends upon, some body else. It is nothing to do with us whatever happens. But presently the old truism of our childhood—that everything is relative—comes back to mind, and though with our waking thoughts we cast off those of the dweller home, we must immediately prepare to take up again those of a guest, if we are constitutionally conscientious, which, alas, all guests are not. They may, indeed, be divided by this conscient sense into visitors, strangers, and visitors.

Mme. Mohib's well-known saying, "It is a shame to eat another man's bread and give him nothing in return." Such a one should not go to his host but in the holiday world of hosts and guests, as in workday life, good intentions do not always insure success. Guests sometimes sometimes fall where the unscrupulous succeed.

SALT LAKE'S GREAT SHOPS.

Are to be Located on This End of the Line.

Forty More Acres Acquired by Company's Representatives.

Los Angeles Land for Big Buildings and Homes of Army of Employes.

That the car shops of the San Pedro, Los Angeles and Salt Lake Railroad, are to be located in this city instead of in Salt Lake is now a practical certainty.

It has been evident for some time that there were strong reasons for believing that this city would be given the preference, and the advantages in its favor were known to have attracted the attention of prominent officers of that company, and to have been carefully canvassed by them.

It was known, moreover, that the company owned about fifty acres lying between First and Sixth streets and extending from the old Workman Ranch tract on the east to the Los Angeles River on the west. Its depot and roundhouse are on this tract, and the desirability of the tract as a site for still more extensive car shops has been known to more than one. But the immediate and important movements that would be involved in the erection of all the shops needed in both the construction and repair departments of this transcontinental railroad was also realized; and it was pointed out by persons by whom the situation had been somewhat closely considered that the small city of homes of workmen and employees who would naturally seek to build in the near neighborhood of those shops.

ANOTHER FORTY-ACRE TRACT.—There are now four more tracts removed by the recent purchases that were made by the Union Trust and Realty Company and associates from William H. Workman, Marie E. Workman and John S. Cravens of a tract adjoining the holdings of the railroad company and comprising about forty acres lying between Third and Sixth streets, on the south and south-west. Between these streets on the east and Glendale and Clarence streets on the west. The associations consist of Warren Gillette and other persons of prominence, but the bulk of the land is to go to the Union Trust and Realty Company.

The company is believed to be acting for and on behalf of J. Ross Clark.

Audie, and they had no difficulty in securing evidence—in fact none of those arrested even denied that they had been gambling. Some of them claimed they did not know that players poker in the saloons, and others asserted that the law of the land. One of the prisoners, at least, knew better, having formerly conducted a poker joint for what there was in it, until he found another way of making money.

When the officers entered the front yard they had only to look through an open window to see the gambling in full operation. The windows were covered with curtains, and the chips and even saw coin placed among the chips on the table. Then they stepped in and stood unobserved for a moment, and then the game was in full play. When the players finally looked up in surprise they were arrested. The officers were obliging, and instead of calling a patrol wagon took their prisoners to the Police Station in street cars.

Lee, the manager of the Record, which has been conducting a "campaign" against the police, asserted that the name of W. S. Smith. It seemed to be the irony of fate that he should be captured in the act of doing exactly what his paper has frequently asserted the police would not or could not arrest anyone for doing. MacDowell, the cartoonist, who said in an interview with the police told the police his name was J. R. Wilson. Twenty-five dollars cash bail was demanded of each of the prisoners, and they went in the custody of Detective Baker, to the city editor of the Herald, who managed to get them into Alcatraz. It was willing to them to him in the custody of Detective Baker, for only six of his counselors, were promptly headed by her order, only two escaping. Liang Chi Cho, our vis-

PUBLIC SERVICE.

SUMMARY OF THE DAY.

An agreement was virtually entered into yesterday between a committee from the Supervisors and the Board of Public Works whereby a city street will be set aside to be improved by hobos incarcerated in the County Jail.

Lawyer Shinn expects to turn all "hobos" loose through a technical point he raised yesterday.

Hobber Sullivan was convicted by a jury.

The pool-selling case against Black and others was reset.

AT THE CITY HALL.

MERGER ON PLAN TO WORK HOBOS.

CITY STREET WANTED FOR THE COUNTY PRISONERS.

Council Will Order Improvement on Thoroughfare Adjoining County Farm and Supervisors Will Make Wears "Looseness" Work—Scheme Not Tried for Ten Years.

A thoroughfare known as "Wood avenue," which is described on the city map as running along the southern boundary of the County Hospital grounds for 1000 feet, is to be cut through and graded. When this avenue is improved it will complete a square of streets around the hospital.

The Supervisors want this avenue made such not only in name, but in reality. That is fact No. 1.

Fact No. 2 is that a dozen of hobos and criminals is headed for Los Angeles, and upon them the bounty of the County will fall.

The Supervisors have discovered the relation between these two facts and are going to have the second solved first.

The first step toward this solution was taken yesterday when Supervisors Alexander and Graham called at the City Hall to see the Board of Public Works.

The Board Engineers has promised to furnish the grade immediately, and assurance was given the Supervisors that at today's meeting of the Board of Public Works the plan will be put into effect, which is to order the street work done, will be carried out.

Some lousy hobo who is as yet unknown to fame, and probably hasn't had even a name as yet, will have the honor of digging the first spade of earth in the improvement of Wood avenue.

The job is extensive, involving the cutting away of several thousand yards of earth, the hobo will have a long task. The earth will be used to fill the low places in the ground, the trees and buildings will conceal the laborers from passengers on the cars and drivers on Mission road.

To the site of the new will be given the office of appointing guards for the "hobos." If the "tourist" crop is up to the ordinary level we'll have new appointments all day to make.

It is ten years now since county prisoners have been worked, and then it was on roads in the county. There is little to justify the innovation of prison labor to help to man the roads on city streets, say the Supervisors, and if the practice justifies the theory Los Angeles will profit by the winter crop of hobos.

LAWYER WANTS TO TURN JAIL BIRDS LOOSE.

SHINN CITES A TECHNICALITY IN CRIMINAL CASE.

Sensational Point Raised in the Fisher Forgery Case—Claim that Clerk Powell of the Police Court Could Not Administer This Oath.

Half the jail birds in State's prison will be turned loose if a point of law raised in Judge Smith's court yesterday is sustained by the Supreme Court. The point was "pointed" by Attorney Shinn in the Fisher forgery case, but Judge Smith pushed him aside.

Shinn claims that the information against his client is invalid because the system now generally in vogue is a gigantic mistake.

The complaint against Fisher was sworn to before Clerk Powell, who is chief of the Police Judge Morgan. Like other police justices, Morgan was acting in a dual capacity. He was both police judge and justice of the peace. As a justice of the peace he had jurisdiction in the Fisher case, as police judge he had no jurisdiction.

As a consequence, Shinn claims that Powell, clerk of Police Judge Morgan, had no authority to administer an oath in the court of Justice of the Peace Morgan.

Judge Smith said there was nothing in the point. Fisher's case was set for the foot of the calendar.

ROBBER CONVICTED. Ed Sullivan,

VIOLENT HOP GANG BROKEN BY POLICE.

CHARLES H. STROUD, a vicious negro, must furnish \$200 bail or remain in jail until October 27. Strood was arraigned before Police Justice Austin yesterday on the charge of vagrancy, and the result of this was aggravated by the statements of the police that he is a generally worthless character, a "hop head" and the paramour of a cast-off white girl known by many aliases, but whose true name is Grace Wilson, and whose present temporary abode is Oxnard, the little city which drove negro pugilist George Washington wild by convicting him as a vagrant and sentencing him to a fine of \$300—which he paid out of the proceeds of his latest pugil fight.

The violent Strood has been under the eye of the police for some time. At 2:30 o'clock Tuesday morning Officers Story and Wernett located a gang of "hop heads" in a room of the Oriental, a

disreputable rooming-house at Commercial and Larchmont streets, where the dissolution of all nationalities congregate to indulge their depravities.

Looking in through the transom, the officers saw a gang of seven men, three negroes and four whites, among them Strood. The officers knocked on the door for admittance, and in the interim of the parley one of the gang threw the stem of an opium pipe out the window. Opium and its paraphernalia is damning evidence in court.

Before more evidence could be thus disposed of the officers got into the room, which reeked with the fumes of opium, and the police, after a "hop" layout, drove six of the inmates from the building, and took the negro Strood to jail, where he was booked for vagrancy.

The negro's person were found letters from the abandoned white girl, Grace Wilson, whose depraved tastes led her to choose Strood for her paramour.

FOR ADULTERY. Dave C. Wilson, a teamster, was held over for trial on a charge of adultery with Mrs. G. Young's court yesterday. He went to live with a young girl, although already married. The Salvation Army rescued the girl and brought her to the temple. She is about to become a mother, and could not be in court to testify against him.

DIVORCES. C. A. Haley was divorced from Mrs. L. W. Haley yesterday in Judge Conrey's court on the ground of adultery. On the same grounds Gustave Peterson was divorced by his lawyer, Peterson, who left his wife back once after she left him for some one else, but she could not stay good.

Annie G. McShane was divorced from Mr. G. J. McShane in Judge York's court yesterday on the ground of extreme cruelty. They lived in a mining camp, and McShane used to beat the woman.

Done in Police Court.

The following cases were acted on in the Police Court yesterday:

F. D. Black and others, conducting and assisting to conduct, a poolroom; Rev. J. F. Tubbs, on November 4, total bail of \$100 stands.

Frank E. Smith, battery on Nora Denison; sentenced to thirty days' imprisonment.

Tom Wilson (colored) drunk and disorderly; created a scene by using vile and filthy language on the streets; sentenced to thirty days' imprisonment.

SAN DIEGO COUNTY.

GETS A LIFE SENTENCE.

(SPECIAL CORRESPONDENCE OF THE TIMES)

SAN DIEGO, Sept. 23.—This forenoon Judge Torrance sentenced Rafael Belarde to life imprisonment for the murder of Peter Burke, the Pacheco Prospector, on the 20th of August, 1902.

The Supervisors have discovered the relation between these two facts and are going to have the second solved first.

The first step toward this solution was taken yesterday when Supervisors Alexander and Graham called at the City Hall to see the Board of Public Works.

EVENTS IN SOCIETY.

The friends of Clement Wilson of this city may be surprised to learn that on the evening of the 14th of this month he was married to Miss Emma Merrill of New Haven, Ct., daughter of Gen. Col. George Merrill White. The wedding took place at Chestnut Grove, Mass., which is the residence of Mr. White's parents. After visiting the principal cities of the East he will return to Los Angeles, which will be their future home. Mrs. Wilson is a pianist, and will be quite an addition to the musical world of this

city.

Organist Married.

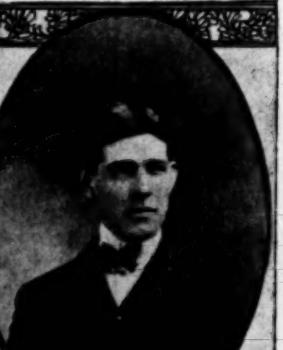

Mrs. Florence Miller Baker, formerly organist of the Third Presbyterian Church, and a gifted musician, was married last evening to Burton Manning Stevenson, the commercial artist, at the home of Mr. and Mrs. Henry H. Becker, No. 1711 Bush street. Mr. and Mrs. Stevenson, after a short wedding trip, will return to their home at No. 1722 West Adams street.

Hearts.

Mrs. O. W. Roberts entertained with a card party in honor of her sister, Mrs. Clara E. Ruck, and Miss Ella Bennett from Pittsburgh. Games were played, while twenty-five guests being present.

Box Party.

Miss Harriet Howe at the Orpheum last Monday evening, followed by a supper at Levy's. Miss Zoo Harrison, Miss Grace Harrison, Frank Coffin, Mr. Morgan and Clarence Moore were members of the party.

Notes and Personals.

Mrs. Wales and Miss Amelia Guest of Los Angeles are making an extended tour to Chicago, New York and various points.

The young man's gift was a handsome blue brooch with French Turban.

Among the many gifts was a silver carriage which came from Mr. McEvoy's office employees. Mr. and Mrs. McEvoy will be at home in October at West and Flamingo streets.

Now Warning.

The elegant home of Mrs. George C. Anna, No. 224 Harvard boulevard, in the scene of a house warming tomorrow, Mrs. Anna will have a large number of guests.

Refreshments will be served in a porch screened in for the occasion and walled with bamboo. The house will be turned out in its best.

Mr. Deacon will be assisted in running the house.

Mrs. Katherine Kimball Forest arrived from New York Sunday morning, and will make her home with her mother, No. 1020 West Twenty-third street.

BURNERS ON FULL BLAST.

Apparent Attempt of Young Woman to Commit Suicide in a Main-street Lodging-house.

Miss Anna Feitz, aged 26, a waitress at Commercial and Main streets yesterday afternoon to the officers expected to prosecute him, and the maximum punishment.

In some parts of the world he would atone for the wrongs of the girl without trial.

Wernett and Storey, agents of the police, having completed their investigation, recommended that she be tried for the offense of attempted suicide, but all that they can do is to prosecute him, and the maximum punishment.

At noon yesterday the police ambulance was summoned to the lodging-house, No. 123 South Main street, on a telephone message.

The officers found Dr. Henry M. Nast attending on Miss Feitz, who had been taken to the Receiving Hospital, where she was partly comatose.

When the officers expected to prosecute him, he steadfastly refused to shoulder a rifle. He was sentenced to one year's imprisonment, was ordered to stand up, and was added to the same result.

He declares that he will not leave his cell until he is released.

He will undergo a life imprisonment.

[NEWS REPORTS FROM TIMES CORRESPONDENTS.]

SAN BERNARDINO.

LLOYD DEPOSITIONS.
SAN BERNARDINO, Sept. 23.—The making of depositions in the C. R. Lloyd will contest, which is to be heard in Oakland, October 6, was concluded here yesterday before Attorney Bryton W. Waters of Los Angeles, representing Lloyd, the defendant, and Attorney W. S. Goodfellow, of San Francisco, representing the respondents. The depositions taken so far have been to determine Lloyd's relations with his nieces, the Misses Boxall, who had constituted the party of the suit instituted by young Lloyd, contesting the will of his father, lately deceased.

NEARLY STRANGLED.

William Gardner, the maniac, who attempted to rifle the United States mails and gave the entire struggle before he was rendered unconscious by a blow with a club, made an attempt last night at either suicide or to escape. He also tore up the flooring in his cell, and during the course of the night the guards were aroused and found Gardner with his head thrust between the steel door and the bars of his cell. The door was drawn tightly upon him, and he was already in the stages of strangulation.

JOTTINGS.

The charge of grand larceny, preferred against Edna Taylor, a demimonde, and two male companions was dismissed yesterday in Justice Thomas' court, for lack of evidence to show criminal intent. It is thought that the complainant, C. E. Bainbridge of Redlands, who alleged that the defendants had stolen several rings belonging to him, was drunk and that he had given them away to the girls to keep until he sobered up.

The "Pirates of Penzance," Gilbert & Sullivan's tuneful operetta, will be produced in the local theater the latter part of November.

The divorce suit of Orville Kennedy against Cora E. Kennedy, and of Harold B. Stanford against Letta Stanford, has been taken from the trial calendar. The suggestion is that the warring couples have made up.

Mrs. Emily Zimbo left this evening for Kentucky, for an extended visit with relatives.

Miss Lena Byrne entertained at what last evening, at her home on Fifth street, in honor of Miss Olive Lape, who will leave tomorrow for her future home in Chicago.

If you have lost an opportunity, try a Los Angeles Trial. You may and you will get another just as good. Telephone your wants to Red 44, and our San Bernardino Agency will take your ad. and send it to the main office.

ONTARIO.

NEWS NOTES.
ONTARIO, Sept. 23.—A. F. Hallstrom of Santa Ana will put down a 300-foot well on the Bullion Mountain Mining & Milling Company's property. It is believed that at that depth an artesian flow of pure water can be obtained.

Contable S. F. Glass has been appointed City Marshal, in place of A. N. Clarke, released.

The Citrus Fruit Association of Ontario will hold its annual meeting Saturday at 2 p.m. at its packing-house on East A street.

The Ontario public schools and High School will open Monday.

We are on the other end of your phone. Telephone your wants to Main 102 and our Ontario Agency will take your ad. and send it to the main office.

SANTA ANA.

DRAWING LIQUOR TRIAL.
SANTA ANA, Sept. 23.—The first day of the trial of R. S. Dickinsonson on the charge of illegally transporting intoxicants for the Santa Ana Social Club in violation of the city prohibition ordinance attracted a crowd that filled the audience room of the City Hall today. The case is generally regarded as a test of the ordinance recently enacted against saloons and liquor syndicates that are out in force for the trial. The first venire of twenty-four jurors was dismissed this morning because they were unwilling to swear in R. S. Dickinsonson, who is the complaining witness. Only a beginning was made today in securing the jurymen, and from present indications, none of whom seem likely to be taken with the same task. Judge J. W. Ballard and Clyde Bishop, are defending Dickinsonson, while City Attorneys W. F. Henthorn and W. F. Hahn, attorneys for the Anti-Saloon League, are conducting the prosecution.

PREPARING FOR WALNUTS.

The packing-house of the Santa Ana Valley Walnut Growers Association on South Main street, near Fourth street is being put in readiness for handling this season's crop. The house will be opened October 4, and a steady run of several weeks is expected. The packers, as last season, to the Fay and Porter fruit companies, which take alternate carloads. The output of the association last year was 15,000 bushel loads, and this year will probably slightly in excess of half that amount, according to preliminary estimates of growers.

VALLLEY BRIEFS.

A joint meeting of the committees of Garden Grove citizens, and of the Santa Ana Chamber of Commerce, on right-of-way for the Santa Ana-Los Angeles electric road, was held at Garden Grove yesterday. Plans were formulated for the work. The committee men will be in the field tomorrow for concessions.

A marriage license was issued today to John F. Beanblossom, 34, Alhambra, and Edith Cavanaugh, 24, Santa Anna. Ralph Rogers and Mabel Clair Bailey of that city were married today by Rev. J. H. Garnett of the First Baptist Church.

A. D. Paxton of Orange had worn out a warrant for the arrest of Walter Goss, on charges of stealing a saw, axe and other tools from him.

Mrs. Nettie C. Hartgrave, wife of R. M. Hartgrave of Northgate, died yesterday afternoon at the residence of her daughter, Mrs. Frank and Mrs. J. G. Klemm, Jr., of Philadelphia, to which city the remains were forwarded for interment.

HERE AND THERE.

Mr. and Mrs. H. T. Hays and daughter, Miss Wanda Hays, will leave Thursday evening on a month's eastern trip. Some time will be devoted to a visit with relatives and friends in the country, and Mr. and Mrs. Hays, Lancaster, Pa., will be there.

E. S. Moulton will leave tomorrow for the East on a business trip.

John G. Potter and E. C. Swank, in the employ of the Riverine Water Company, have received a government contract on a new water meter, that is intended to revolutionize measuring water by meters.

Albert N. Morris, the new physical director of the Y.W.C.A. arrived from the coast yesterday and will proceed at once to get things into shape for the winter's work.

Frank Andrew Paddock, eldest son of A. E. Paddock of Riverside, and Miss Mary Burrows, will be married Saturday afternoon at the home of the bride's parents, Mr. and Mrs. H. C. Parks, in West Redlands, Rev. G. H. Hillerman officiating.

"To be or not to be" may very properly be called a question, but advancing in the Los Angeles Times is no question of life or death, but a question of right and wrong.

GOOD ROADS IN THE EAST.

Assistant Director Eldridge of the Agricultural Department Says They Are the Best in the United States.

[EXCLUSIVELY CONTRIBUTED TO THIS TIMES.]

For the last ten years the question of road improvement has received a good deal of attention from the legislators in the Eastern States, notably New Hampshire and New Jersey.

Many roads in the country in these States have been improved by the State governments, and some have

done little, and many roads have

been gradually becoming worse instead of better. In Massachusetts the idea was first conceived of a state aid system, and subdivisions thereto cooperated in the improvement of the roads. A State law embodying this principle was adopted in New Jersey, about the same time, and in New York, about the last ten years remarkable progress has been made in these two States. Indeed, the principle of State aid has become so popular with the law makers in the same few years that the same principle has been enacted into law in Maine, New Hampshire, Vermont, Rhode Island, Connecticut, New York, New Jersey, and New England.

It is now a few days here that the roads are doing little, and in many cases nothing, and that the roads were gradually becoming worse instead of better.
